Discovering Your Needs

Should you require customization of any of our products, you will be closely worked with to capture your unique requirements, including a walk-through of the product journey and desired consumer experience

Design & Quote

We offer a collaborative experience to achieve the desired design required that align with your company's aesthetic. This is followed up with a tailored quote.

Protoyping

Once the design is approved, a physical prototype is crafted for you to review and confirm the form, fit, and function of the final product.

Manufacturing

After you are happy with the prototype, we manufacture at our state of the art manufacturing lines and deliver your custom packaging to you.

On-going Support

Our commitment to support you goes beyond production. We will support you with your evolving needs

-  PIZZA LINER & LINED BOXES
-  FRIED CHICKEN BOX
-  HAMBURGER BOX
-  BOAT TRAY
-  TAKEAWAY BOX
-  DESSERT BOX
-  FRUIT BOX

pizza boxes

THREE MAIN PRINTING PROCESSES

FLEXO PRINTING

Uses flexible relief plates made of rubber or photopolymer to transfer ink directly onto the substrate. Offers good print quality suitable for bold designs and simple graphics but has limitations with fine details and high-resolution images. High-speed production, cost-effective for large runs

HI-RES FLEXO PRINTING

An advanced version of flexo with significantly improved resolution and detail compared to standard flexo, capable of finer lines, gradients, and complex designs, approaching offset quality. Slightly slower setup due to precision requirements, with higher initial costs for advanced plates, but still efficient for medium to large runs.

OFFSET PRINTING

Involves transferring ink from a metal plate to a rubber blanket, then onto the substrate. It uses a flat printing surface and relies on the principle that oil and water don't mix. Superior color accuracy, sharpness, and detail, making it ideal for intricate designs and high-resolution images. Slower setup with higher initial costs due to plate production, but cost-effective for very large runs; less efficient for short runs.

INDUSTRIAL PACKAGING

 ORGANIZATION BOXES

 VARIETY INDUSTRIAL BOXES

organization box

- Practical and economical solution for organizing clutter.
- Open storage bins, an economical solution for organizing parts.
- Simple assembly: fold along the lines to create bins without tape or staples.

We offer a variety of sizes,
customizable to your needs.

packaging cartons

MEDICINE BOX

We specialize in secure, compliant packaging for pharmaceutical medicines, ensuring temperature control and protection with tamper-evident designs tailored to your brand. Trust GSI for high-quality, regulatory-approved solutions and custom labeling—contact us to safeguard your products with precision!

DANGEROUS GOODS PACKAGING

At GSI, we provide compliant, customizable packaging for hazardous materials like lithium-ion batteries and corrosives, adhering to UN, IATA, and DOT standards with tailored labels.

Choose GSI for durable, eco-friendly solutions, expert support, and your company name or logo added for a professional finish

TOY BOX

We craft vibrant, child-safe toy boxes with durable materials and custom designs featuring your company name and logo for a playful yet professional touch. You can rely on GSI for eco-friendly, impact-resistant packaging that meets safety standards—reach out to bring your toy line to life!

AVIATION CONSUMABLE PRODUCTS

 TRASH COMPACTOR BOX

 TEXTILES

 100% COMPOSTABLE

TABLEWARE

 GALLEY SUPPLIES

trash compactor box

Our FSC-certified trash compactor boxes are a testament to our commitment to sustainability and efficiency. Responsibly sourced, rigorously tested, and designed for compatibility with Safran trash compactor systems, these durable, waterproof solutions are transforming waste management in aviation. By combining eco-friendly materials with industry-leading performance, we help airlines reduce their environmental footprint without compromising on reliability.

textiles

Refreshment Hand-Towels

Our towels are thoughtfully crafted from sustainable materials, offering a balance of durability, comfort, and high quality that meets the expectations of premium passengers. Designed with both performance and environmental responsibility in mind, they contribute to a refined onboard experience while aligning with airlines' growing focus on sustainability at most importantly, a highly competitive price point

Sugarcane Bagasse Towel Trays

Each towel is individually packaged in a 100% compostable tray made from sugarcane bagasse—an innovative, eco-friendly alternative to plastic. These trays not only help eliminate single-use plastic waste but also support the aviation industry's broader efforts to reduce its environmental impact and promote an eco-conscious brand image.

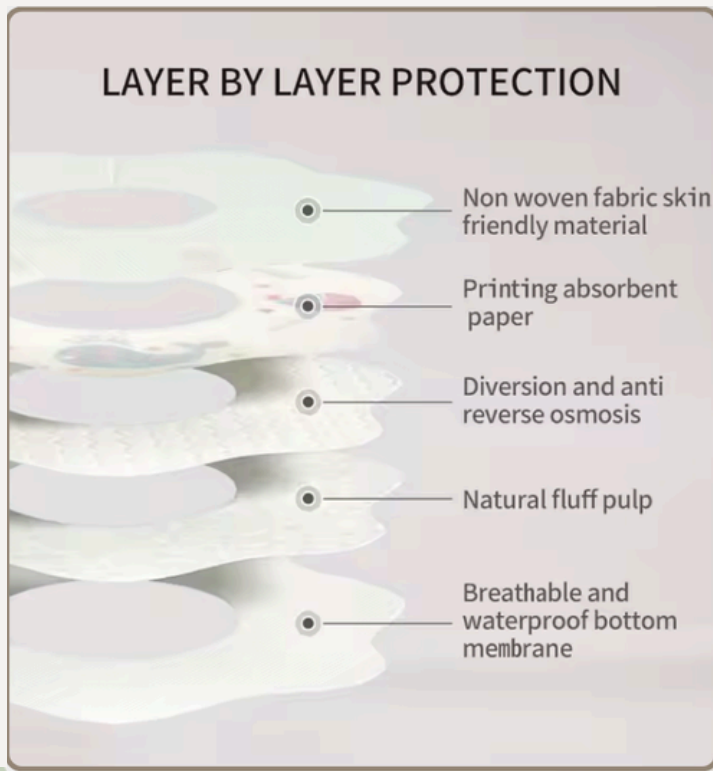

Table Linens

Our premium fabric options include 100% cotton, cotton-poly blends, and eco-friendly alternatives like bamboo viscose—all offering a smooth, crease-resistant finish ideal for inflight use. Sustainably sourced and dyed using low-impact processes, these textiles combine environmental responsibility with exceptional quality. Designed for long-lasting durability, they retain their appearance and softness through repeated wash cycles, helping to reduce long-term replacement costs. Custom embroidery and branding options, including your logo integration or bespoke patterns, further enhance the passenger experience while reinforcing your brand identity.

textiles- baby products

Our inflight bib solutions are designed to combine practicality, comfort, and sustainability for a smoother travel experience with infants. The disposable bibs are hygienic, absorbent, and easy for crew to use, helping reduce mess efficiently while keeping babies comfortable. For added protection on long-haul flights, our 360° drool-proof bibs feature a multi-layered, rotatable design that ensures all-around coverage and maximum dryness. Made from soft, skin-safe materials suitable for sensitive infant skin, all bibs are crafted using biodegradable or recyclable components to support eco-conscious cabin operations.

100% compostable tableware

1. Fully compostable
2. Zero plastic and melanin
3. Custom shapes and sizes
4. Stylish, sustainable, airline-grade
5. Leak resistant & operational between -90°C to 220°C

Our stylish, sustainable, airline-grade tableware is designed to support a zero-waste service model without compromising on luxury or operational efficiency. Made from 100% compostable sugarcane bagasse, each piece breaks down within 90 days in industrial composting, significantly reducing landfill waste. Engineered to perform under all airline meal service conditions, the tableware is fully oil- and water-resistant, withstanding temperatures from -90°C to 220°C . Available in custom shapes and sizes, it seamlessly fits existing catering trays and routines, with the option for embossed branding to enhance your onboard presentation.

galley supplies

Eco-Friendly Disposable Drinks Coasters

Serve drinks in style while reducing your environmental footprint. Our biodegradable coasters are made from recycled pulpboard. Custom embossing is available to align with your branding.

Eco-Friendly Coffee Stirrers

Crafted from sustainably harvested wood or bamboo, these stirrers are strong, smooth, and 100% compostable. Available in custom lengths and with laser-etched your logos for added brand elegance in every cup served.

Eco-Friendly Coffee Cups

Made from FSC-certified paper with a plant-based PLA lining, our cups offer the heat insulation and durability expected in premium cabin service. Designed for easy recycling, and available in your signature color themes upon request.

GSI PACKING MATERIALS TRADING

GSI Packing Materials Trading, headquartered in Dubai, is a subsidiary of ACED Seb Solutions. A leading packing and distribution company strategically placed for its pivotal role in supporting global deliveries. As our primary distributor of consumables, GSI ensures seamless and reliable delivery of high-quality packing materials and consumables worldwide. With a focus on efficiency and innovation, GSI empowers and enables partners and ACED Seb Solutions to excel through tailored logistics and exceptional service.
